Lady Bug™ gobbles her way through a maze. Suddenly a starving insect charges after her! Use turnstiles to change the maze and block the predator's pursuit. HERE'S HOW TO PLAY

STEP-BY-STEP INSTRUCTIONS

NOTE: If you are playing a two-player game, players take turns. Player 1 goes first. Each turn lasts until the player's Lady Bug™ is eliminated.

STEP 1: Preparing for the chase.

Press Reset and the Title screen appears. Press the Disc or any Keypad Button for the Game Option screen to appear. Choose a one- or two-player game by pressing Keypad Button 1 or 2; then press Enter. Choose a Skill from 1 through 4 by pressing the corresponding keypad button.

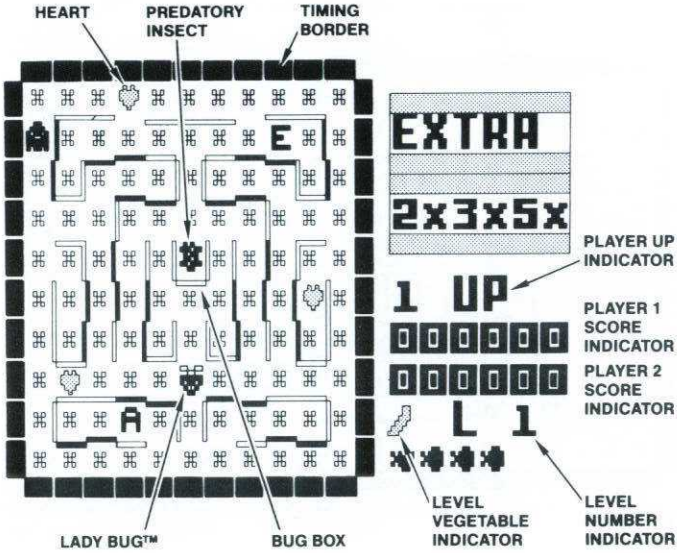
Skill 1 is the easiest level, suitable for beginners.

Skill 2 action is faster than Skill 1, but not as demanding as the arcade game.

Skill 3 plays much like the arcade game.

Skill 4 is more challenging than the arcade version!

If you accidentally make the wrong choice, press Clear and choose again. Then press Enter and a screen appears with the letters and number of hearts and skulls you will find in the maze. Good luck!



STEP 2: Enter the Lady Bug™.

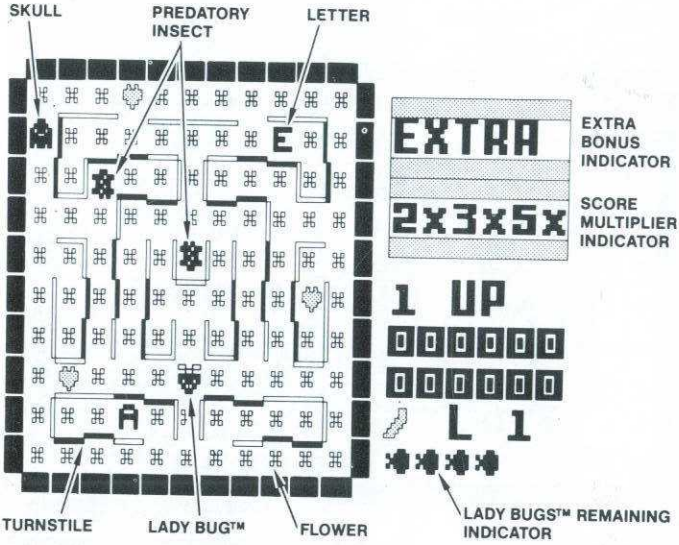
The maze screen appears. Lady Bug™ glides in and stops below the bug box. You're ready to begin.

STEP 3: The feast.

Move Lady Bug™ through the maze. She's a hungry sort, eating as many flowers, hearts and letters as she can find. Watch the color of the hearts and letters Lady Bug™ eats. Red hearts and letters are worth the most!

STEP 4: Multiply your score.

Eat one blue heart and double your score for the rest of the play level. Eat another blue heart and your score triples. Keep an eye on the Score Multiplier Indicator to see how fast your score will grow.



STEP 5: EXTRA!

Each maze features two letters. Eat the letters when they're yellow to spell the word 'EXTRA' in the EXTRA Indicator. When you spell 'EXTRA,' you automatically finish the maze and earn a bonus Lady Bug™.

STEP 6: The chase begins!

When the timing border changes color completely, a predatory insect leaves the bug box to chase Lady Bug™. Avoid predatory insects by steering Lady Bug™ through the turnstiles. But be careful. If a predator follows Lady Bug™ closely enough, it can slip through the turnstile and catch her!

STEP 7: Use your skull.

Let Lady Bug™ guide the predatory insects into the fearsome skulls. The skulls eliminate predators on contact. But keep Lady Bug™ away from the skulls. If she touches one, she is eliminated along with all of the skulls!

STEP 8: A vegetable snack.

After all the predatory insects have left the bug box, a vegetable appears there. Guide your Lady Bug™ into the box for a feast of points!

But remember, if a predatory insect is eliminated by a skull, the vegetable is immediately replaced by the eliminated insect. After the timing border changes color again, that insect emerges from the bug box to chase Lady Bug™ once more!

STEP 9: Going to a new maze.

When Lady Bug™ has eaten all the flowers, hearts and letters in the maze, another full maze appears for more action!

STEP 10: Starting over.

Press Reset and the Title screen appears so you can play LADY BUG™ again!
